

## SAFETY DATA SHEET

According to Reg. (EC) No 1907/2006 modified by Reg. (EU) No 2020/878

### SECTION 1: IDENTIFICATION OF SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product identifier: **KLINIKO-SEPT cleaning and sanitizing liquid soap**

#### 1.2. Relevant identified uses of the mixture: biocidal product, product type: 1, for professional use

Hygienic handwash – washing and sanitizing hands in one step.

Active substances: **chlorhexidine digluconate (CHDG)** and

**alkyl(C<sub>12-16</sub>) dimethylbenzylammonium chloride (ABDAC/BKC)**

Both active substances are listed in product type 1 in the Reg. (EU) No 1062/2014 on the work programme for the systematic examination of all existing active substances contained in biocidal products referred to in Reg. (EU) No 528/2012

Microbiological spectrum: bactericidal (including MRSA), yeasticidal and virucidal activity

Uses advised against: other than above

#### 1.3. Details of the supplier of the safety data sheet: **CLEAN CENTER KFT.**

Address: H-1164 Budapest, Csókakő u. 35.

Phone number: +36 20583 4371

E-mail: [info@cleancenter.hu](mailto:info@cleancenter.hu)

Website: [www.cleancenter.hu](http://www.cleancenter.hu)

#### 1.4. Emergency telephone numbers

Hungarian Health & Toxicological Information Service: Working hours: +36 1 4766464

24 hrs service: +36 80 201199

Poison Control Centres in EU: <https://poisoncentres.echa.europa.eu/appointed-bodies>

<https://echa.europa.eu/hu/support/helpdesks>

### SECTION 2: HAZARD IDENTIFICATION

2.1. Classification of the mixture: the product is a **hazardous mixture** according to manufacturer and in compliance with Reg. (EC) No 1272/2008 and its modifications.

Classification:	Hazard class		Category
Physical hazard:	not classified		
Health hazard:	Eye Irrit. 2	Serious eye damage/eye irritation	2
Environmental hazard:	not classified		

#### 2.2. Label elements

Pictogram: GHS07

Signal word: WARNING

#### Hazard statement

H319 Causes serious eye irritation.

#### Precautionary statements

P102 Keep out of reach of children.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical attention.

The product label shall comply with the requirements of Art. 69 of Reg. (EU) No 528/2012.

#### 3.2. Other hazards

The product does not contain any PBT, vPvB components according the criteria set out in Annex XIII of REACH Regulation. The product does not contain substances classified as SVHC (Substances of Very High Concern) and substances which are on the candidate list of SVHC published by the European Chemicals Agency (<https://echa.europa.eu/candidate-list-table>).

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

**3.1. Substance:** does not apply.

**3.2. Mixture:** the product is a mixture.

Hazardous components which must be listed according to Reg. (EU) No 2020/878 are listed in the table below.

Hazardous components	Concentration	Hazard class, hazard category, H-statement
Chlorhexidine digluconate (CHDG)* CAS No.: 18472-51-0 EC No: 242-354-0	1.2%	Eye Dam. 1, H318; Aquatic Acute 1, H400, M <sub>(acute)</sub> : 1 Aquatic Chronic 1, H410, M <sub>(chronic)</sub> : 1
Alkyl(C <sub>12-16</sub> ) dimethylbenzylammonium chloride**	0.75%	Acute Tox. 4 (oral), H302; Skin Corr. 1B, H314; Eye Dam. 1, H318; STOT SE 3, H335; Aquatic Acute 1, H400, M <sub>(acute)</sub> : 10 Aquatic Chronic 1, H410, M <sub>(chronic)</sub> : 1

\* Chemical name: D-gluconic acid, compound with N,N-bis(4-chlorophenyl)-3,12 diamino-2,4,11,13-tetraaza-tetradecane diamidinium [2:1] and there is no harmonised classification, classification is from the supplier's SDS.

\*\* As no harmonised classification exists, classification given above is based on adopted BPC opinion on the application for approval of alkyl(C<sub>12-16</sub>) dimethylbenzylammonium chloride in product type 4 (ECHA/BPC/268/2020)

The other components (non-ionic surfactant, skin conditioner, emollient, water, etc.) are not hazardous, or their concentrations are low enough not to be taken into consideration in the classification and labelling of the product according to the relevant regulations.

Hazard classes, H-statements relate to pure components. Hazard classification of the product is given in Section 2.

Full texts of the H-statements and hazard classes, categories are listed in Section 16.

## SECTION 4: FIRST AID MEASURES

### 4.1. Description of first aid measures:

Fast and professional first aid measures can largely diminish progress and severity of the symptoms.

**General information:** If toxic symptoms develop or suspicion of intoxication arises the work should be immediately discontinued. Immediately move affected person away from the source of exposure to fresh air or to a well-ventilated room and after on-site first aid medical attention should be provided.

Never give drink and never induce vomiting if the victim is unconscious or suffers from convulsions.

**Inhalation:** not relevant exposure.

**Eye contact:** Flush eyes with large amount of lukewarm water holding the eyelids wide open and moving eyeballs continuously for at least 10 minutes. Seek ophthalmologist if symptoms persist after washing.

**Skin contact:** Wash off with running water after accidental contact. The product is developed for cleaning and disinfecting hands in one step it should also be rinsed after intended use.

**If swallowed:** DO NOT INDUCE vomiting! Take care to avoid the risk of foam aspiration. If vomiting occurs, keep head low so that stomach content cannot get into lungs. Wash out mouth cavity with water.

**4.2. Most important symptoms and effects, both acute and delayed:** eye irritation.

**4.3. Indication of any immediate medical attention and special treatment needed:** not known.

Note to the physician: treat according to symptoms.

## SECTION 5: FIREFIGHTING MEASURES

**5.1. Extinguishing media:** water spray, water fog, dry powder, carbon-dioxide.

Use fire-extinguishing media suitable for the surrounding fire. not known.

**Unsuitable extinguishing media:** not known.

**5.2. Special hazards arising from the substance or mixture:** in fire toxic gases can be formed: carbon oxides.

**5.3. Advice for firefighters:** adapt firefighter protective equipment to surrounding fire.

Wear self-contained breathing apparatus, and full protective gear in case of chemical fire.

Use water spray to keep fire-exposed containers cool.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedure

Take care of risk of slipping. Use of safety glasses and gloves are recommended during decontamination of large quantities. The risk zone must be closed down and the decontamination must be performed by trained persons equipped with protective equipment.

**6.1.1. For non-emergency personnel:** do not touch and walk into spilled material.

**6.1.2. For emergency personnel:** Keep unnecessary and unprotected persons away from the spillage. Prevent further leakage or spillage if safe to do so. Take care of the risk of slipping.

**6.2. Environmental precautions:** Prevent entry into drains or water-bodies. Dispose of waste in accordance with local, national regulations of hazardous waste. Inform authorities if large amount is involved.

**6.3. Methods and material for containment and cleaning up:** In the event of a major spillage, absorb large quantities of product into inert material with extreme absorbing properties, such as sand, vermiculite. Put contaminated sorbent in labelled containers, keep it closed and dispose according to national regulations. Residues can be cleaned up by washing with plenty of water.

In case of minor spillage, the usual clean-up methods are suitable, flush small spills with water.

**6.4. Reference to other sections:** see also Sections 8 and 13.

## SECTION 7: HANDLING AND STORAGE

### 7.1. Precautions for safe handling

Read and follow manufacturer's recommendations on the label.

Work watchfully to avoid splashing, spilling, contact of eyes. There is risk of slipping on the floor.

**Hygiene measures:** Do not eat, drink or smoke while handling. Take off the contaminated, soaked clothing. Wash off the accidentally affected skin with running water.

**Fire and explosion protection:** special measures are not necessary.

### 7.2. Conditions for safe storage, including any incompatibilities

Store in the original packaging upright, in a cool, dry, well-ventilated, frost-free area.

Keep away from food, feed and direct sunlight.

Keep out of reach of children.

Recommended storage temperature: 5 – 30°C. Consider storage conditions during transport.

Shelf life: 24 months from date of manufacture if it is stored properly.

**7.3. Specific and uses(s):** see Section 1.2. Hygienic handwash (cleaning and disinfection in one step) in food industry, catering, institutional areas, health care, wellness centres, and fitness rooms, animal husbandry, etc.

Users should always read the instructions for use and follow the instructions for safe handling and use.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1. Control parameters/Occupational exposure limits

No occupational exposure limit in air is set up on ingredients of the product.

### 8.2. Exposure controls

Users should be aware that the product can cause eye irritation.

#### Hygiene measures

- Do not eat, drink or smoke while handling.
- Handle carefully to avoid splashing, spilling, contact of and eye.

#### Personal protective equipment

- **Eye/face protection:** not necessary.  
Wearing safety glasses comply with EN 166 standard is recommended in case of industrial operations, decontamination, handling large quantities, etc.
- **Hand and skin protection:** not necessary.  
The product is developed for cleaning and disinfecting hands in one step. It should also be rinsed well with running water after the intended use.
- **Respiratory protection:** not necessary.
- **Thermal hazard:** not relevant.

**Environmental exposure controls:** Avoid release into sewers, drains.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

Physical state:	liquid
Appearance:	homogenous, clear, colourless liquid
Odour:	none
Odour threshold:	not relevant
pH (concentrated product):	5.7 – 7.0 at 20°C
Melting point:	not relevant
Initial boiling point and range:	not determined
Flash point:	>100°C, predicted
Evaporation rate:	no data, similar to water
Flammability (solid, gas):	not relevant
Explosive properties:	not considered to be explosive
Explosive limits.:	not relevant
Vapour pressure:	no data
Vapour density:	no data
Density:	1.02 g/cm <sup>3</sup> at 20°C
Solubility:	unlimited in water
Partition coefficient (logP <sub>o/w</sub> ):	not relevant, it is a mixture
Auto-ignition temperature:	not self-igniting
Decomposition temperature:	no data, does not decompose at ambient temperature
Viscosity:	no data
Particle characteristics:	not relevant
Oxidising properties:	not considered to have oxidising properties

### 9.2. Other information

- 9.2.1. Information with regard to physical hazard classes: classification into physical hazard classes is not necessary according to the composition.
- 9.2.2. Other safety characteristics: not known.

## SECTION 10: STABILITY AND REACTIVITY

**10.1. Reactivity:** not reactive. No dangerous reaction known under condition of normal use

**10.2. Chemical stability:** stable if it is handled and stored according to instructions.

**10.3. Possibility of hazardous reactions:** not known.

**10.4. Conditions to avoid:** heat, frost, mixing with incompatible materials.

**10.5. Incompatible materials:** do not mix with other product.

**10.6. Hazardous decomposition products:** not known at normal use and storage conditions.

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

No toxicological study was performed with this product.

Classification of the product is based on composition and classification of ingredients.

**Acute toxicity (oral, dermal and inhalation):** criteria for classification into acute toxicity hazard classes are not met according to ATE<sub>mix</sub> values.

**Skin corrosion/irritation:** based on available data on components classification criteria are met.

**Serious eye damage/eye irritation:** based on available data classification criteria are met. The product can cause eye irritation classification: Eye Irrit. 2

**Respiratory or skin sensitization:** sensitization is not expected based on the available data and information of the ingredients.

**Carcinogenicity:** classification criteria are not met for carcinogen hazard class based on the information and data of ingredients. None of the components is carcinogen.

**Germ-cell mutagenicity:** based on available data classification criteria are not met, components are not mutagenic.

**Reproductive toxicity:** not known, based on available data and information classification criteria are not met. None of the components has reproductive toxicity.

**Specific target organ toxicity single exposure (STOT SE):** based on information on the ingredients the classification criteria are not met.

**Specific target organ toxicity repeated exposure (STOT RE):** based on information on the ingredients the classification criteria are not met for this hazard class.

**Aspiration hazard:** not anticipated to present aspiration hazard based on composition.

**11.2. Information on other hazards:** not known.

## SECTION 12: ECOLOGICAL INFORMATION

**12.1. Toxicity:** no ecotoxicological study was performed.

Due to the composition the product is not considered as an environmentally hazardous mixture.

**12.2. Persistence and degradability:**

Alkyl(C<sub>12-16</sub>) dimethylbenzylammonium chloride: logP<sub>o/w</sub>: 0.5 – 2.75 and BCF: 67 – 160

Data for chlorhexidine are inconclusive, results do not allow a classification of biodegradability or a conclusion about degradation rates in biological treatment plants and in environmental compartments. Furthermore, it remains unresolved if those metabolites of chlorhexidine biodegradation that are observed in laboratory tests are also formed in relevant amounts under more realistic conditions.

**12.3. Bio accumulative potential:** no bioaccumulation expected based on logP<sub>o/w</sub> values of the components.

Alkyl(C<sub>12-16</sub>) dimethylbenzylammonium chloride: logP<sub>o/w</sub>: 0.5 – 2.75 and BCF: 67 – 160

Chlorhexidine digluconate: logP<sub>o/w</sub>: -1.82 (20.7°C), BCF: 1.77

**12.4. Mobility in soil:** likely mobile.

**12.5. Results of PBT- and vPvB assessment:** not available for all components. alkyl(C<sub>12-16</sub>) dimethylbenzylammonium chloride is not PB, and vPvB substance, but toxic to aquatic environment according to adapted BPC opinions.

**12.6. Endocrine disrupting properties:** components are not considered to have endocrine disrupting properties.

None of the components is classified as carcinogen category 2 and toxic for reproduction category 2.

Alkyl(C<sub>12-16</sub>) dimethylbenzylammonium chloride has no ED properties with respect to humans and with respect to non-target organism no conclusion can be drawn based on the available data according to adopted BPC opinions.

**12.7. Other adverse effects:** not known.

## SECTION 13: DISPOSAL CONSIDERATIONS

**13.1. Waste treatment methods**

The generation of waste should be minimised or avoided wherever possible.

This product and its container must be disposed of in a safe way.

Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and national authority requirements.

When handling waste, the safety precautions applying to handling of the product should be considered.

Do not empty waste into drains, rivers, watercourses, ponds, standing waters, natural waterways.

Contact your sales representative or local environmental or health authorities for approved disposal methods.

EWC code may vary depending on place of use, circumstances of waste generation.

## SECTION 14: TRANSPORT INFORMATION

According to the international transport (ADR/RID, IMDG, ICAO/IATA) regulations the product **is not dangerous goods**.

**14.1. UN number or ID number:** not relevant.

**14.2. UN proper shipping name:** not relevant.

**14.3. Transport hazard class(es):** not relevant.

**14.4. Packing group:** not relevant.

**14.5. Environmental hazards:** not relevant.

**14.6. Special precautions for users:** not relevant.

**14.7. Maritime transport in bulk according to IMO instruments:** not relevant

## SECTION 15: REGULATORY INFORMATION

**15.1. Safety health and environmental regulations/legislation specific for mixture**

**Relevant European Acts**

Regulation (EU) No 528/2012 of the European parliament and of the Council concerning the making available on the market and use of biocidal products and its modifications

Regulation (EU) No 1062/2014 on the work programme for systematic examination of all existing active substances contained in biocidal product referral to in Reg (EU) No 528/2012

Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and its modifications

Regulation (EC) No 1272/2008 and of the European Parliament and of the Council on Classification, labelling and packaging of substances and mixtures and its modifications

Council Directive 98/24/EC of 7 April 1998 on the protection of the health and safety of workers from the risks related to chemical agents at work

Commission Directive 2006/15/EC of 7 February 2006 establishing a second list of indicative occupational exposure limit values in implementation of Council Directive 98/24/EC and amending Directives 91/322/EEC and 2000/39/EC

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste

**15.2. Chemical safety assessment:** has not been carried out.

## SECTION 16: OTHER INFORMATION

The safety data sheet applies to the delivered product.

The information contained in the safety data sheet is correct to our best knowledge on the date of issue; it is intended as a guide for safe use, handling, disposal, storage and transport of the delivered product. Safety data sheet does not replace product specification.

The information contained in the safety data sheet does not represent a guarantee of product properties nor does it create any legal obligation.

Consumers, users themselves are responsible for the risks and hazards resulting from the use of the product. Manufacturer, distributor do not assume any warranty or responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected to the handling, storage, use or disposal of the product because conditions of application, handling, storage, use or disposal of the product is beyond their control.

**Training recommendation:** In the annual occupational safety training workers should be informed about the hazards of handling chemicals and the general safety and health protection measures.

SAFETY DATA SHEET SHOULD ALWAYS BE AVAILABLE FOR USERS AT HAND.

**Classification of the product:** the product is classified by calculations methods in accordance with Reg (EC) No 1272/2008.

### Full text of H-statements and hazard classes, codes for the pure substance(s) referred to in Section 3:

Acute Tox.: acute toxicity, Aquatic Acute: hazardous to the aquatic environment, acute hazard; Aquatic Chronic: hazardous to the aquatic environment, chronic hazard; Eye Dam.: serious eye damage; Skin Irrit.: skin irritation; Skin Corr.: skin corrosion

- H302 Harmful if swallowed.
- H314 Causes severe skin burns and eye damage.
- H318 Causes serious eye damage.
- H335 May cause respiratory irritation.
- H400 Very toxic to aquatic life.
- H410 Very toxic to aquatic life with long lasting effects.
- H411 Toxic to aquatic life with long lasting effects.

### Other abbreviations

- ADR European Agreement concerning the International Carriage of Dangerous Goods by Road
- ATE<sub>mix</sub> Acute Toxicity Estimate
- BCF bioconcentration factor
- CAS Chemical Abstract Service, number for the identification of chemical substances
- CLP Classification, Labelling, Packaging –used as abbreviation of Regulation (EC) No 1272/2008
- EC<sub>50</sub> 50% of maximal Effective Concentration
- ECHA European Chemicals Agency
- ER estrogen receptor
- EWC European Waste Catalogue
- GHS Globally Harmonized System of Classification and Labelling of Chemicals
- IATA International Air Transport Association
- ICAO International Civil Aviation Organization Technical Instruction for the Safe Transport of Dangerous Goods by Air

IMDG	International Maritime Dangerous Goods Code
M	multiplying factor, it is used to derive by summation method the classification of mixtures
LC <sub>50</sub>	lethal concentration to 50% of a test population (median lethal concentration)
logP <sub>o/w</sub>	logarithm of n-octanol-water partition coefficient (K <sub>o/w</sub> )
M <sub>(acute)</sub>	M-factor of aquatic acute toxicity
M <sub>(chronic)</sub>	M-factor of aquatic chronic toxicity
PBT	persistent, bio accumulative and toxic
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals, Reg. 1907/2006/EC
RID	Dangerous Goods Regulations – International Carriage of Dangerous Goods by Rail
SVHC	Substance of Very High Concern
vPvB	very Persistent and very Bio accumulative

**History:** This safety data sheet (version: 1.0-EN) is issued 25 January 2021.

Occupational safety advice for safe use of the product: +36 2 0582 4371 (9:00 – 14:00 on weekdays)

Safety data sheet can be downloaded from site:
